CHECK21PLUS ARC

your connection to check deposits from your desk

You Should Know Your Bank - But You Can Certainly Cut Down On Your Visits

EFT Network knows that you need to work as efficiently as possible, and running out to the bank to make deposits just isn't a productive use of time. That's why we recommend Check21PLUS ARC to deposit checks without leaving your desk. It's convenient, secure and efficient. EFT Network's Check21PLUS ARC is designed for businesses who receive checks through the mail, message or drop-box environment. Scan and deposit checks electronically from your business place directly to your business bank account.

Save unnecessary trips to the bank and increase the speed and accuracy of accounts receivable processing. No deposit slips; no courier service for daily deposits. You can even consolidate your banking business with one bank. If you have offices in various locations, Check21PLUS ARC can transmit checks to one centralized bank rather than driving checks to local banks each day and paying for each local bank to transfer funds.

It's simple. Access your check images and payment status around the clock. All you need is a personal computer with internet access, and a scanner. Place the checks through the scanner, and watch each paper check convert into an electronic image, resulting in an electronic deposit into your bank account.

Key Features

- 24/7 Access to your payment status around the clock

- Highly Flexible to support any check payment type and volume

- CAR/LAR improves speed and accuracy in the capture process, resulting in major savings in data entry/ processing time, and error reduction
